BRAND WITH SOUL

Our purpose is to contribute to the wellbeing and happiness of people through design and the relationship we establish with the objects that surround us in our daily lives. We believe in honest and accessible design.

Nuestra razón de ser es contribuir al bienestar y la felicidad de las personas a través del diseño y la relación que establecemos con los objetos que nos acompañan en nuestro día a día. Creemos en un diseño honesto, accesible y cercano.

TURN OFF THE LIGHT

Our sustainability journey focuses on minimizing our environmental footprint and maximizing our positive impact on society.

Nuestro camino hacia la sostenibilidad se centra en reducir nuestro impacto negativo en el planeta y maximizar nuestro impacto social positivo.

QUALITY COMMITMENT

Our commitment to quality is at the heart of everything we design. We rigorously control the quality of our products and services from conception to functionality and reliability testing.

Nuestro compromiso con la calidad está presente en todo lo que diseñamos. Controlamos rigurosamente la calidad de nuestros productos y servicios desde la concepción hasta los ensayos de funcionalidad y fiabilidad.

Quality management system based on ISO9001.

Compliance with electrical safety regulations under EN60598 and energy efficiency ERP.

Sistema de gestión de calidad basado en la ISO9001.

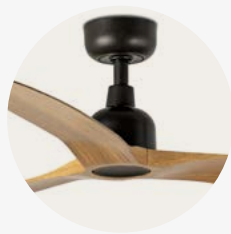

Cumplimiento legislativo de las normativas de seguridad bajo la EN60598 y la normativa de eficiencia energética ERP.

BEST CHOICE

15-year warranty
on the engine

High performance

Wide range.
Over 80 designs

FSC Certified
wooden blades

With over 40 years of experience, we are your best choice.
Con más de 40 años de experiencia, somos su mejor opción.

SMART OPTION

CONTROL YOUR FAN, ANYTIME

Download app

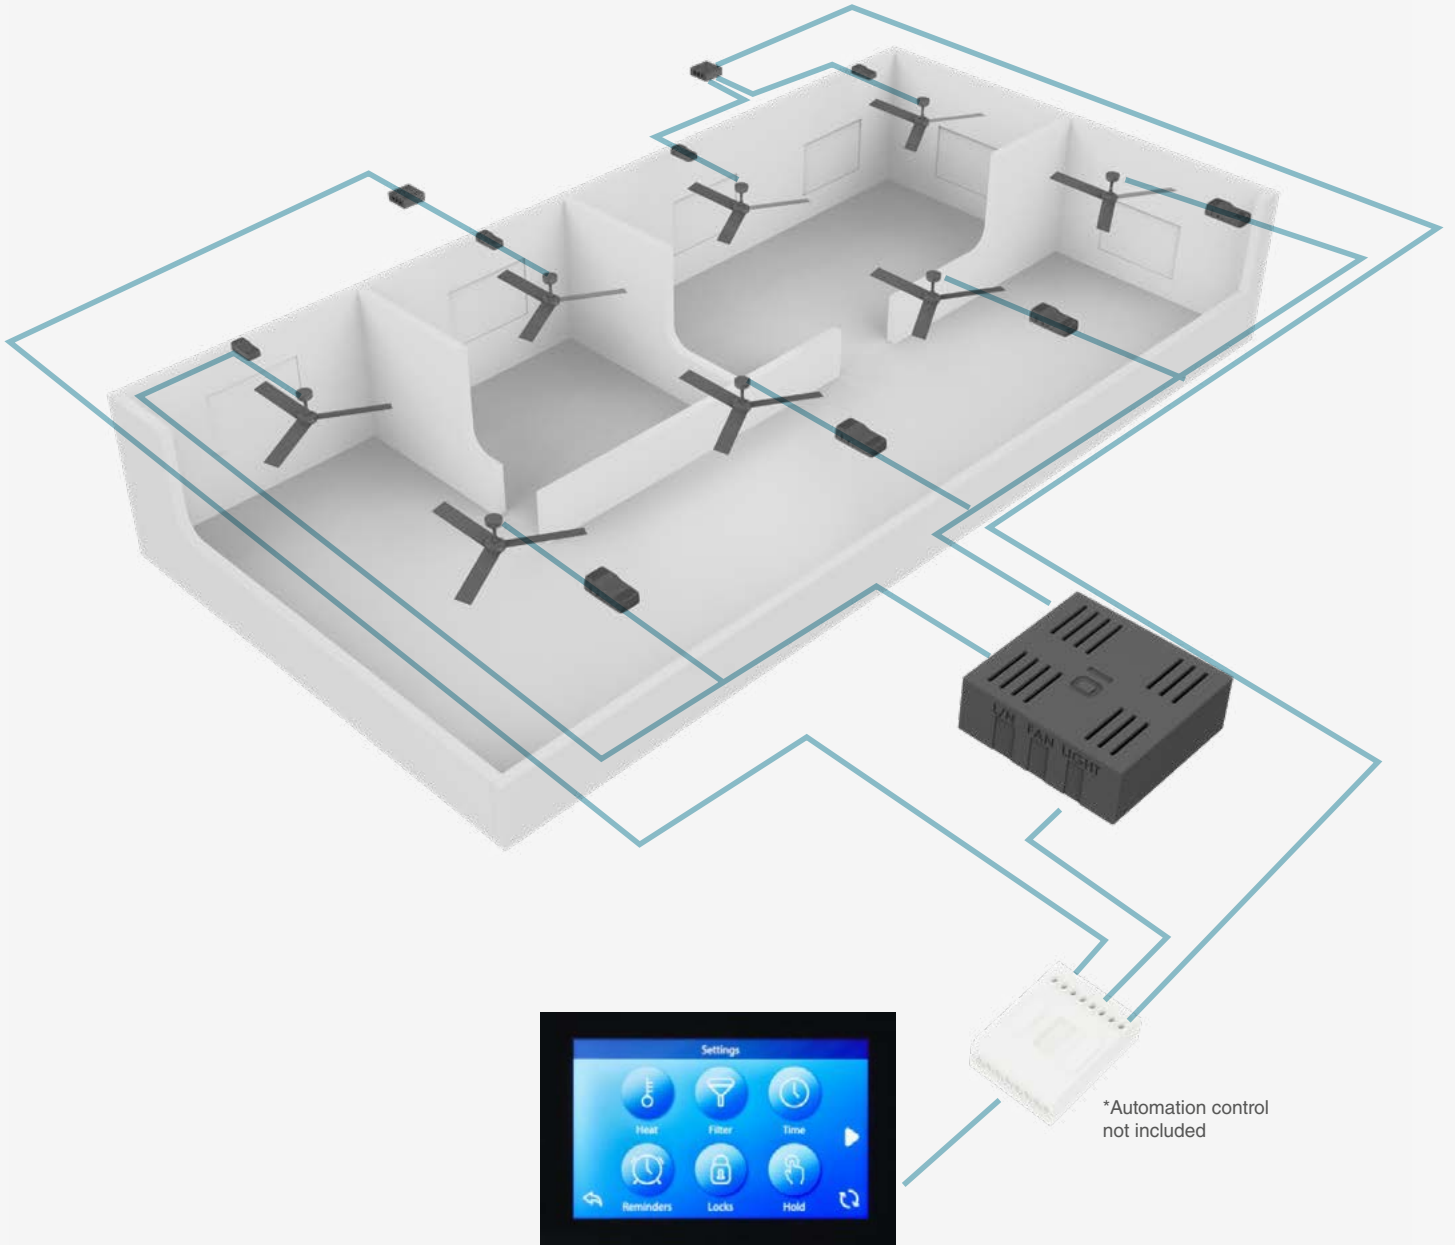

Control the fan from your mobile and select the app that matches its smart system.

Controla el ventilador desde tu móvil y selecciona la aplicación compatible con su sistema inteligente.

DC WALL CONTROLLER WITH DIMMER

This new wall control for DC motor fans features an updated front design with borderless organic glass, designed to fit in standard recessed box, either round or square. It also supports a light dimming function and connects wirelessly to the fan via radiofrequency.

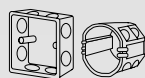

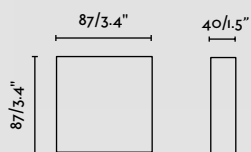

Ref. 33988
Front Glossy Black
Body Matt Black

Ref. 33987
Front Glossy White
Body Matt White

Material Body ABS
V/Hz 100-240V/50-60Hz

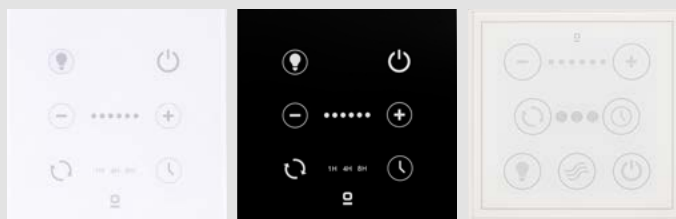

Compatible with standard recessed box

ONE CONTROL FOR ALL

Compatible with all DC wall controller

This new remote control incorporates several memory options, that is to say, the fan will be able to remember certain configuration types: light memory, fan memory, confirmation sound and keypad lock. This allows for greater customization.

The light and fan memory, sound confirmation block, and keypad lock come deactivated by default, so if you wish to activate them, you will need to follow the steps below. If you have activated them and want to revert it, you can follow the same steps.

- 1 After its installation and complete assembly, cut off the power to the fan for at least 10 seconds.
- 2 Insert the batteries into the remote control.
- 3 Reconnect the fan to the power. The receiver will be active for synchronization only during the 30 seconds after reconnecting the power.

- 4 Press and hold the following button, depending on the configuration you need, until a continuous beep of about 2 seconds is heard.
 - BUTTON 1:** Light kit memory: the fan will remember the last configuration.
 - BUTTON 3:** Confirmation sound block: it will avoid hearing any "beeps" when using the fan.
 - BUTTON 4:** Keypad lock: you can lock the keypad, except for the on/off button. Ideal for hotels and homes with children.
 - BUTTON 6:** Fan memory: the fan will remember the last configuration once it is turned on, including speed, reverse and breeze modes.

***Special configurations**

INTEGRATION IN AUTOMATION

Fan gateway 0-10V/1-10V

34162

Gateway for integration of home automation systems for Faro Smart fans (speed and light). It allows integration with KNX, LUTRON, BACnet, CASAMBI and other systems by means of 0-10V/1-10V control.

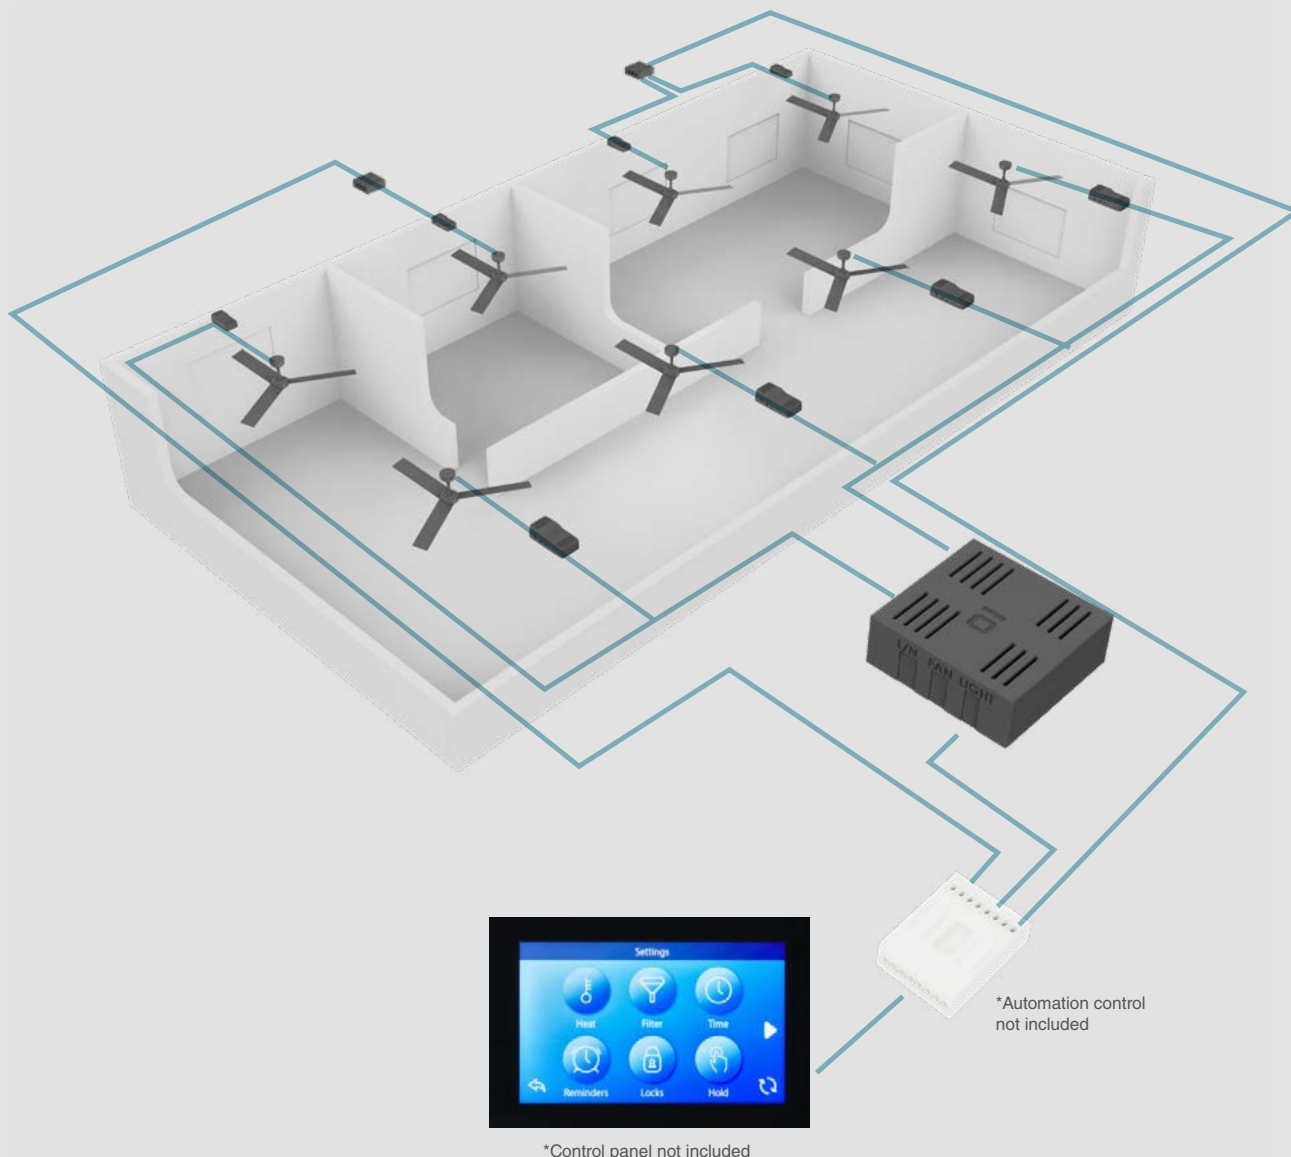

The installation of this device may be for one fan or group of fans with unitary operation with a maximum of 128 fans per gateway unit.

Universal Receiver

34160

Universal dimmable receiver for programming adaptations in FARO WP fans and development of home automation integration projects with integration gateway 0-10V/ 1-10V ref.34162.

Compatible Fans

*To view the fan specifications, go to the final index and locate the corresponding model.
