SHINE IN A BRIGHTER WAY

STRAC

MAGNETIC TRACK LIGHT

CLEAN LINES
EASY INSTALLATION
SHINE IN A SNAP

Clean-lined, flexible and fun, STRAC is a series of pro magnetic track lighting and modular linear channel system that allows the creative arrangement of lightings in a snap.

STRAC can be installed in a continuous row or run in various directions thanks to a series of back to back connectors, which make this system a very versatile one!

FREE COMBINATION

Get playful.

The ceilings and walls
are your canvas.

LIGHTING DESIGN DATA SUPPORT DIALUX

WELIGHTING is your go-to lighting consultant.

We turn the complex values of lux level and uniformity of light throughout the whole spaces into user friendly 3D animations and diagrams. With these handy tool, you know how your project will exactly look in the end

To create a more realistic effect, artificial and daylight can be integrated into the calculation to give a realistic visualization for each unique light scene.

WELIGHTING commits to energy conserving and eco-friendly practices in the lighting industry. Apart from comfort and functionality, we take important requirement like current standards or Light Power Density(LPD) into account when we select and orchestrate lighting fixtures for a project. We help you to comply with the Code of Practice for Energy Efficiency of Building Services Installation(BEC).

STRAC 25/35

- Track light with aluminium body
- 48V system, slim track adaptor
- Integrated LED power driver
- Standard in 5 color combinations, electroplating color in gold and chrome also available on request
- Dimming options available
